

OnGuard Managed Services

by

REAC Computer Services, Inc.

INCREASED SUPPORT (24x7 monitoring)

IMPROVED VALUE Pre-paid service contract at reduced rate

no trip charges

OnGuard Managed Services turns conventional IT support on its head. Rather than wait for you to notice that a system has failed – often involving time-consuming ‘systems fiddling’ on your part – our 24x7 monitoring will alert you (and REAC at your option) to problems at your site. REAC will almost always know about a systems issue before you do, so we can fix it fast (according to your service contract) and minimize your business disruption. If there’s a problem or a potential problem, REAC will be alerted instantly so REAC’s technicians can take specific actions to resolve the issue – almost always before you know you have one.

Key Benefits of REAC’s OnGuard Managed Services:

- ✓ Reduces Server downtime.
- ✓ Provides specific, informative alerts that show the exact nature of the problem so REAC can fix it faster.
- ✓ Problems are almost always highlighted to OnGuard Managed Services technicians before you even know you have one. Uptime is maximized.
- ✓ Alerts are routed to the right technician. They can fix it faster – and do it right the first time.
- ✓ Alerts for mission-critical systems can be set by SMS day or night.
- ✓ Helps keep unwanted and illegal software off of your servers and workstations.
- ✓ Helps plan for future growth and budgeting.
- ✓ Reduces hourly billing rate for prepaid technical service.
- ✓ No trip charges for onsite service.
- ✓ Free up your IT staff so they can do other important and critical tasks.
- ✓ Helps reduce your IT costs.

What Does OnGuard Managed Services Check?

- ✓ Availability – OMS ensures your system is accessible at all times so you avoid expensive downtime.
- ✓ Security – OMS ensures your network is up to date and able to protect against all security threats.
- ✓ Performance – OMS ensures your system is operating at full efficiency and grows as you do.
- ✓and much more.

Workstation Support-Monitoring

Add workstation monitoring support and get 24x7 monitoring similar to server monitoring plus:

- ✓ Asset/inventory list of software and hardware.
- ✓ Alerts when unauthorized software is loaded on workstations.
- ✓ Automatic disk clean-up.
- ✓Plus many additional features.

Reporting Options

- ✓ Daily Health Report – shows status of backup jobs, disk health, disk volume growth rates, hacker attempts, event logs, etc.
- ✓ Weekly Health Report – Summary of the Daily Health report so you can see developing issues and plan ahead.
- ✓ Monthly Client Report – provides comprehensive detail about outages and trends experienced during the month. You’ll receive full color graphs showing: disk space trends, outage analysis by type, and more.
